

How to update the AT Jiu Jitsu website

Use this guide for two safe update paths: email intake for requests, and the CMS for direct homepage edits. Preview first. Production only after approval.

1 MINUTE 40 SECOND TUTORIAL

Start here

PDF readers: open the video link above to watch the narrated tutorial.

CHOOSE THE RIGHT PATH**Use email intake when the request is messy.**

Best for flyers, blog posts, event announcements, attached images, or anything that needs judgment.

Use the CMS when the edit is structured.

Best for homepage text, images, buttons, program cards, visibility, and ordering.

EMAIL INTAKE

Use one exact subject prefix

ATJJ Blog Post:

Use for announcements, events, flyers, and news posts.

Example subject

ATJJ Blog Post: Summer Camp Reminder

ATJJ Site Update:

Use for copy, CTAs, program details, or general site changes.

Example subject

ATJJ Site Update: Change kids program button

ATJJ Homepage Image:

Use to replace or reorder homepage images.

Example subject

ATJJ Homepage Image: Use attached hero photo

What to include

- What page or section changes.
- The final words to use, if ready.
- Attachments, flyers, images, or links.
- Deadline or approval notes.

PREVIEW-FIRST WORKFLOW

Email requests do not publish instantly

01 Email

Use one supported ATJJ subject prefix.

02 Agent branch

The update is made safely in Git.

03 Netlify preview

Review the actual page before launch.

04 Approval

Production changes only after Alex approves.

CMS SYSTEM

How to update directly in the CMS

- 1 Go to /admin/**
Log in with Netlify Identity.
- 2 Open Site Content → Homepage**
This is the structured homepage editor.
- 3 Edit only the fields you need**
Hero, program cards, images, CTAs, visibility, or order.
- 4 Add clear alt text for images**
Example: Kids training Brazilian Jiu-Jitsu at @JiuJitsuNYC.
- 5 Save and use the editorial workflow**
Check the Netlify preview before production.

@JiuJitsuNYC Content Manager

Blog

Pages

Site Content

Homepage

Hero Image

Upload + alt text

Hero Headline

Short and clear

Program Cards

Copy, image, link

Section Order

Move items up/down

Visibility

Show or hide sections

Featured Posts

Set count

IMPORTANT GUARDRAILS**Do**

- Preview first.
- Use short, final copy.
- Add alt text for every image.
- Use CMS for structured homepage edits.

Do not

- Do not push production without approval.
- Do not change Gymdesk schedule/signup links unless Alex approves.
- Do not send vague emails like "update the site" without details.
- Do not edit generated files or public build output.

COPY/PASTE TEMPLATES

Email templates

Blog post

Subject: ATJJ Blog Post: [Title]

Please create a post about [event/promo]. Use this copy: [final copy]. Attachments: [flyer/photo]. CTA: [link or button]. Deadline: [date].

Site update

Subject: ATJJ Site Update: [Short change]

Please update [page/section]. Replace current text with: [final text]. Keep this link: [URL]. Preview before production.

Homepage image

Subject: ATJJ Homepage Image: [Section]

Please replace the [hero/program/CTA] image with the attached photo. Alt text should be: [plain description].

CMS rule

If it is structured and obvious, use CMS. If it needs judgment, send email intake.
